Dear customers,

You move people. Day and night. Over land. Through cities. Right across Europe. It is good to know that there's always someone there to help, whenever and wherever you need them.

We offer you the most dense bus and coach service network in Europe by means of our EvoBus ServiceCenters and authorised service partners.

With over 100,000 parts in stock, 24 hour dispatch throughout Europe, an online network at all support points and the latest electronic documentation systems for parts, we're setting international standards in warehousing, distribution and logistics. We ensure fast and reliable availability of original parts within our OMNIplus ServiceNetwork.

This catalogue is designed to identify a broad selection of the parts and accessories essential for the reliable operation of your bus or coach.

Should you have any questions with respect to OMNIplus original parts for your Mercedes-Benz or Setra bus or coach then simply call your service partner. We will be happy to advise you.

When making a parts order then simply contact your local service partner. You can locate them using the online Service Directory, and there you'll find all the necessary contact details and opening times. The parts directory is also available as an online version when you visit www.omniplus.com

Wishing you happy motoring.

A Passion for Buses and Coaches

Buses and Coaches are the no. 1 form of worldwide passenger transport. DaimlerChrysler is the dynamic leader in the world market for buses and coaches. And EvoBus GmbH is the European subsidiary which offers you, alongside its two strong brands and the highest standards in manufacturing expertise, something of even greater importance: a new dimension in customer proximity.

The world's first engine-powered bus took to the road as early as 1895 – hand built by Carl Benz in Mannheim, Germany. We strive to continue this traditional approach now and will do so into the future. Because of this DaimlerChrysler Buses and Coaches are today the undisputed world market leaders, offering not only two strong brands, but much more besides: cross brand *OMNIplus* services – offering comprehensive expertise and competence in the support of Mercedes-Benz and Setra buses and coaches.

With *OMNIplus* you simply benefit over and over again. Ranging from service-offers specifically designed for buses and coaches, highly effective driver and service training, a unique selection of pre-owned vehicles available across Europe, tailored financial services, and special individual vehicle conversions. And not least, a passion for fulfilling all of our customers' expectations when it comes to quality and performance. But why not find out for yourself – and let yourself be convinced. Original parts and accessories for your Mercedes-Benz and Setra bus or coach.

In a class of their own: Original Parts and Accessories – in proven OMNI*plus* Quality

Mercedes-Benz and Setra buses and coaches have one thing above all in common: they are originals that want to stay original. This is the reason why all bus and coach support points in our ServiceNetwork supply you only with quality tested original parts and accessories.

Only the successful joining together of a large number of original parts can result in a complete Mercedes-Benz or Setra bus or coach.

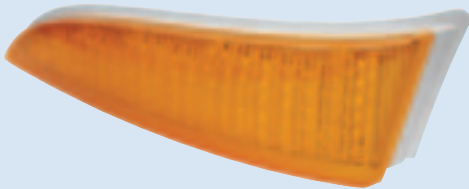

It's for this reason why it's always worth ensuring that you choose original parts when your vehicle requires a replacement. This will keep your bus or coach true to its original condition.

OMNI*plus* original parts and accessories are tailor made to the requirements of your Mercedes-Benz and Setra bus or coach, and constant quality control and inspection procedures guarantee the highest possible security. It's this that forms the basis for the vehicles reliability, durability and functionality.

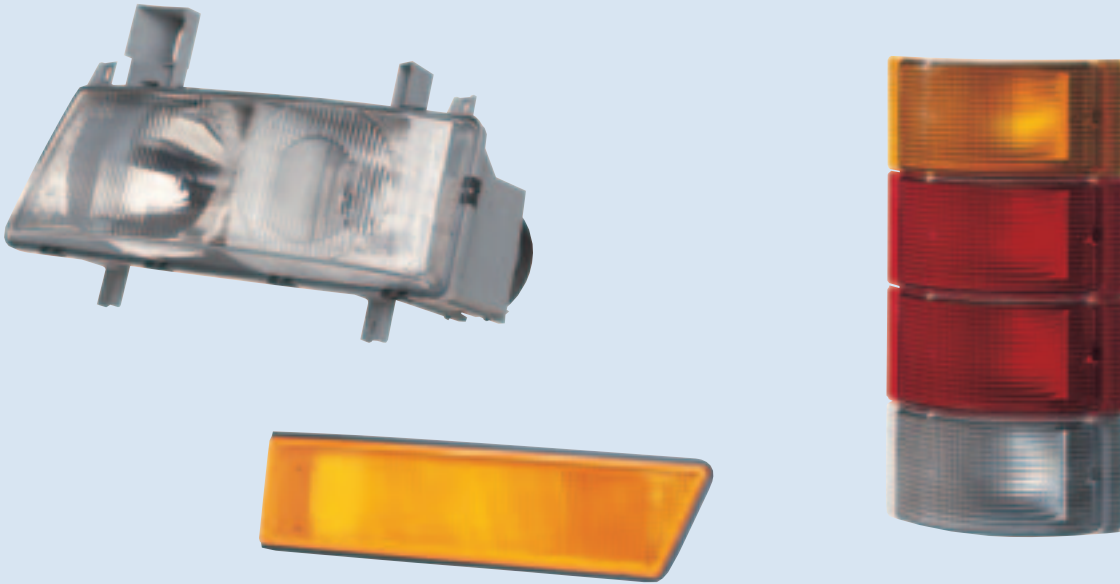

We guarantee this by means of our parts and our accessories in proven OMNI*plus* quality. Find them nearby at one of the 500 service partners throughout the OMNI*plus* ServiceNetwork.
